Summary

Motivated Computer Science Engineering graduate seeking an entry-level opportunity in software development. Skilled in Python, AI/ML, web technologies, and problem-solving with hands-on experience in academic and real-world projects. Strong interest in building scalable applications and continuously improving technical skills in a professional environment.

Technical Skills

Languages: Python, JavaScript, SQL
Web & App Dev: HTML, CSS, React Native, REST API
Tools & Concepts: Git, GitHub, MySQL, AI/ML, Computer Vision
Soft Skills: Problem Solving, Teamwork, Communication, Adaptability, Quick Learning

Education

Aditya College of Engineering and Technology 2022–2026
B.Tech in Computer Science and Engineering *CGPA: 7.78*
Rajamahendri Junior College 2020–2022
MPC (Intermediate) *Percentage: 57.60%*
Anand Nagar Municipal Corporation High School Completed 2020
SSC *Percentage: 86.33%*

Internships

SOFTWARE DEVELOPER INTERN — LogoJech Technologies Private Limited (On-Site) May 2025 – Nov 2025
- Developed real-time object detection applications using Python, YOLO, and OpenCV.
- Handled data preprocessing, model training, and evaluation to improve AI/ML model accuracy.
- Developed a gunny bag detection system using computer vision techniques during a hackathon.
- Collaborated on React Native application development and integrated AI/ML solutions into software applications.

WEB DEVELOPMENT INTERN — Prodigy InfoTech Feb 2025 – Mar 2025
- Developed responsive and interactive web pages using HTML, CSS, and JavaScript.
- Applied UI/UX principles to enhance website usability and user experience.
- Optimized and debugged web pages to ensure performance and cross-browser compatibility.

SDE INTERN — APSCHE (Online) May 2024
- Contributed to the development of a healthcare appointment platform using the MERN stack.
- Implemented authentication, RESTful APIs, and role-based dashboards for users and administrators.
- Performed testing, debugging, and suggested system enhancements to improve functionality and usability.

Projects

Personal Portfolio Website — HTML, CSS, JavaScript
- Designed and developed a responsive personal portfolio website to showcase projects and achievements.
- Built a clean and modern UI using HTML, CSS, and JavaScript with smooth navigation and mobile responsiveness.
- Organized sections to effectively present technical skills, internships, and projects.

AI Video Interviewer — Flask, Python, HTML, CSS, JavaScript, JSON
- Built an AI-based interview preparation web application that simulates real interview scenarios with dynamic questions.
- Developed a Flask backend with modular architecture and JSON-based question handling system.
- Integrated OpenAI API for basic dynamic question generation and improved user interaction.
- Designed an interactive frontend and enhanced user interview readiness through structured practice sessions.

DOCSPOT – Doctor Appointment Booking System — MERN Stack
- Developed a full-stack web application for patient registration, doctor search, and appointment booking.
- Implemented JWT-based authentication and role-based access control for patients, doctors, and administrators.
- Built RESTful APIs and dashboards to manage appointments, schedules, and user data efficiently.

Certificates

AWS Cloud Practitioner Essentials – Amazon Web Services (AWS)
Introduction to Generative AI – Google
Data Science – Cisco Networking Academy
Programming Essentials in Python – Cisco Networking Academy
SQL – HackerRank
Problem Solving – HackerRank
HTML and CSS – IT Specialist Certification
